

Day Chairs

RECOVERY CHAIR

The Recovery Chair is an inclining chair offering a high level of stability in the reclined position. The chair has been specifically designed for use by patients recovering from relatively minor procedures as an alternative to a bed.

Product Code: AT-REC_CHAIR

TILT TUB

A mobile, gas operated chair with adjustable leg support designed to cradle the occupant and reduce the number of pressure points. Ideal for people with substantially reduced mobility.

Product Code: AT-TILTTUB

MOBICLINE

A versatile mobile chair that also reclines. This chair features a fully welded frame and incorporates a large meal tray and slide out footrest. A Regency Mobicline is also available with wingback and head support.

Product Code:
AT-MOBICLINE

BC1 HIGH BACK

The BC1 features an ergonomically designed one piece timber shell. The steel frame is fully welded and the leg height is adjustable. The BC1 is also available in a low back version. Available in vinyl, fabric or Zircon in a range of colours.

Product Code: AT-BC1 (2)
Product Code: AT-BC1

BC2 DAY CHAIR

The BC2 has all the features of the BC1 together with a 3-way segmented back cushion that can be adjusted to suit your individual requirements.

The BC2 also incorporates a removable seat cushion for ease of cleaning. Available in vinyl, fabric or Zircon in a range of colours.

Product Code: AT-BC2

BC4 DAY CHAIR

The BC4 sets a new benchmark for design and comfort in adjustable day chairs. Its aluminium frame is very strong yet is also very light. The backrest is fully moulded and both the seat depth and height can be easily adjusted.

Available in vinyl, fabric or Zircon in a range of colours.

Product Code: AT-BC2
